### PHOTOGRAPHY.

Photography today is an economic and social necessity in every community. It maintains the memory and affections of family life through the picture it makes, and which we could not now do without. How often is regret expressed that no picture exists of some friend or relative who is no longer with us! Sometimes, indeed, the camera has to intrude upon the sacredness of the death chamber itself when relatives feel that a photograph in such circumstances is better than none at all. Do not procrastinate. Be wise and "secure the shadow ere the substance fades."

You can get a picture from lockst to life-size at Smith's Studio.
